

Many colleagues and friends of professor Bojic expressed their condolences via telegram and email.

Participants of COST Action TU1205:

....

I am shocked. I will inform the people soon. I don't know what to say.... My sincere condolences to all friends there and to his family.

Soteris

....

*Dear COST Action TU1205 Friends and colleagues,
I am very sad to inform you that our colleague and my personal friend Milorad Bojic has passed away two days ago after a long illness. I knew Milorad for more than 20 years, originally through email exchanges and then in-person. We also co-authored two journal papers in the past. He was an MC member in our Action representing Serbia. He was a professor at the University of Kragujevac, Serbia, and several other universities abroad. He was a world-renown expert and contributor in the field of Energy & Buildings and member of several journals' editorial teams, including ENERGY, where I am the Deputy Editor-in-Chief. The last time I met him was in Prague last year, during the Editorial Board meeting of Energy Journal. Attached you will find a short biography of Professor Bojic....*

He was always a quit and humble worker with extremely high responsibly to anything he undertaken. I am sure we will all miss him.

Soteris

...

Soteris Kalogirou

Professor at the Department of Mechanical Engineering and Materials Sciences and Engineering of the Cyprus University of Technology, Limassol, Cyprus
Editor in Chief of Renewable Energy and Deputy Editor in Chief of Energy journal, Editorial Board Member in another 12 international scientific journals

MC Chair of COST Action TU1205

....

Unfortunately the new year started with bad news...Professor Milorad Bojic was really a very good man and a respected professor.

Let's be the memory of him alive for a long time. I am also very sad for this event ...

Please, give my condolences to his family.

Yiannis

.....

Academician Dr **Yiannis Tripanagnostopoulos**
Professor in Solar Energy, Physics Department
Director of Environmental Sciences MSc Dept
University of Patras, Patra 26500, Greece

Participant of COST Action TU1205

...

We are equally saddened by the news.

Sincere condolences ...

Regards,

Vince Buhagiar

Professor Vincent M.Buhagiar B.E.& A.(Hons.),M.Sc(Lond.),Ph.D.(Wales),Perit.

Head,

Department of Environmental Design,

Faculty for the Built Environment,

University of Malta,

MALTA.

Participant of COST Action TU1205

...

I am thankful for his contributions to science and hope that he enjoyed to contribute. At least a bit he will live in us as we continue to follow his path...

Christoph

Dr.-Ing. Christoph Maurer

Head of Team Solar Thermal Facades

Division Thermal Systems and Buildings

Fraunhofer-Institut für Solare Energiesysteme ISE

Heidenhofstrasse 2, 79110 Freiburg, Germany

Participant of COST Action TU1205

...

I was much saddened that our friend professor Milorad Bajic is no longer with us. He will remain in our memories as a noble, honest, great expert and always ready to help colleagues.

We will all miss him.

Aleksandra Krstic-Furundzic

.....

Prof dr Aleksandra Krstic-Furundzic

University of Belgrade Faculty of Architecture, Belgrade, Serbia

MC Member of COST Action TU1205

.....

*Let us love people now they leave us so fast
The shoes remain empty and the phone rings on
What's unimportant drags on like a cow
The meaningful sudden takes us by surprise
The silence that follows so normal it's
Hideous like chastity born most simply from despair
When we think of someone who's been taken from us.*

*Don't be sure you have time for there's no assurance
As all good fortune security deadens the senses
It comes simultaneously like pathos and humour
Like two passions not as strong as one
They leave fast grow silent like a thrush in July
Like a sound somewhat clumsy or a polite bow
To truly see they close their eyes
Though to be born is more of risk than to die
We love still too little and always too late.*

*Don't write of it too often but write once and for all
And you'll become like dolphin both gentle and strong.*

*Let us love people now they leave us so fast
And the ones who don't leave won't always return
And you never know while speaking of love
If the first one is last or the last one first.*
